

## WP 4 – Task 4.2 Pilot initiatives

### **24.04.2009. Visit of the students and professors of „Mate Balazina“ high school visited NIMSEC EE corner**

The visit was organized as a part of the awareness.net project on 24<sup>th</sup> April 2009. 50 students and professors got acquainted with the purpose and the elements of energy corner. The EE and RES elements were presented by Zoran Pazman, the principal of the School of Building and Crafts in Čakovec. The NIMSEC EE corner is a part of the Regional centre for vocational training in sustainable building and renewable energy that operates in the scope of the school.

By now more than 800 visitors have visited the NIMSEC EE corner, and the visits will continue to be organized in the future thus ensuring the dissemination of the information about the EE and RES.

The full report on the visit is available at:
